**DETAILED ACTION**

**REMARKS**

Claims 1-8 remain pending. Applicants amended claims 1-8.

The claim objections and the rejections under 35 U.S.C. section 112 cited in the previous office action have been withdrawn in light of the amendments.

***Allowable Subject Matter***

Claims 1-8 are allowed.

The following is an examiner's statement of reasons for allowance:

Shaw, Jr. (US 4,427,110) discloses a container for handling diapers. It comprises a sealing member having radial slits that define sectors, and a pressurizing member adapted to separate and maintain the sectors of the sealing member in the separated position when the pressurizing member is inserted through the plane of the sealing member. However, the pressurizing member disclosed by Shaw, Jr. does not comprise a through hole, which is an essential feature of the claimed invention. The through hole of the claimed invention allows the user to gain access to the inside of the container while the pressurizing member is inserted through the plane of the sealing member. The incorporation of a through hole to the pressurizing member disclosed by Shaw, Jr. would not have been obvious because the pressurizing means disclosed by Shaw, Jr. must be a solid member to perform its intended function of pushing articles through the slitted sealing member.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
